

**Ids for all**

22h ago

Anxious one.

Now we can have an ID for everybody on campus including parents, volunteers, and substitutes. And we don't need a printer.

**Great update**

JMG AP

Now that California requires the suicide lifeline number on every ID card this app makes that simple. They also added the ability to send the card by text. Nice to see them moving into the 21 st century.

**Love the new Suici...**

Putting the Suicide Prevention Lifeline links right on the student's phone is a great idea. Having a text line works even better. Being able to put in a custom local link is important so we can engage with other teens and students who care.
